# STREET DIRECTORY.

**T**HE Street Directory is an alphabetical arrangement of the names of the Streets and Avenues of the city. By the decimal system of numbering houses recently adopted in this city, one hundred numbers are allotted to each square. On streets running north and south the numbering begins at the Ohio River. The streets running east and west are numbered East and West from Vine street. All other streets not commencing at either of the above points are numbered in accordance with this system. To such of the streets as are of any considerable importance the names and numbers of intersecting streets and avenues are given in the order in which they occur, which enables one to tell between what streets a certain number is. For instance, you have 430 W. 6th street: by reference to the Street Directory, you find 400 at Central Av. and 500 at John street; consequently, the place you wish to find is between Central Av. and John.
