Street Directory

THE Street Directory is an alphabetical arrangement of the names of the Streets and Avenues of the city. By the decimal system of numbering houses, one hundred numbers are allotted to each square. On streets running north and south the numbering begins at the Ohio River. The streets running east and west are numbered east and west from Madison Av., DeCoursey Av. and Winston Av. All other streets not commencing at either of the above points are numbered in accordance with this system. To such of the streets as are of any considerable importance the names and numbers of intersecting streets and avenues are given in the order in which they occur, which enables one to tell between what streets a certain number is.

Newport Street Directory

THE Street Directory is an alphabetical arrangement of the names of the Streets and Avenues of the city. By the decimal system of numbering houses, one hundred numbers are allotted to each square. On streets running north and south the numbering begins at the Ohio River. The streets running east and west are numbered east and west from York street. All other streets not commencing at either of the above points are numbered in accordance with this system. To such of the streets as are of any considerable importance the names and numbers of intersecting streets and avenues are given in the order in which they occur, which enables one to tell between what streets a certain number is.
