Our Apparatus is in use in numerous other public and private buildings throughout the United States and Canada, and on many of the largest ocean steamers.

Our Apparatus, in design, effectiveness, economy of fuel and elegance, is far superior to any yet invented.

As we only employ the most skilled mechanics to set and adjust our work, and use only the very best material, all parties favoring us with their patronage will be assured of a perfect Apparatus, skillfully adjusted and far superior in every respect to what they can obtain elsewhere.

## FRANK'S PATENT CATCH BASIN.

Patent Right Secured Sept. 5, 1876;

Reissued May 14, 1878.

**A** represents the basin proper.

**B** represents an opening in the basin-floor by which, whenever the plunger **C** is lifted, the contents escape into the discharge pipe **D**.

**J** is a cage or grated stand-pipe to guide the plunger.

Grated opening **E** in the basin wall, or near its bottom, communicates with an inverted syphon or stink trap, **F**, which discharges into the pipe **D** at **f**.

A tube, **G**, which rises from the elbow of syphon **F** is ordinarily closed by cap **E**, but is capable of receiving a plunger, **I**, by means of which any sediment that may collect in the lowest part of the syphon may be removed.

**K** shows a common gutter sink or grating.

**L** are house-pipes.

**M**, main hole.

**N**, urinal.

**O**, seat.

**TWENTY-FIFTH WARD**—Comprises all the territory heretofore known as the incorporated village of Cummins ville.

# STREET DIRECTORY.

The **STREET DIRECTORY** is simply an **ALPHABETICAL** arrangement of Streets, Alleys, etc., with a sufficient portion of corner numbers attached to such as are of any considerable importance, for the purpose of aiding those who refer to it, in becoming familiar with the system of numbering. It will be found by citizens as well as strangers to be a practical guide to the different parts of the City.

**EXPLANATION.**—On streets commencing at and running directly from the Ohio River, or others running in the same direction, the **ODD** numbers are on the West, and the **EVEN** on the East side of the street, commencing at the River or such other point as the street may commence. On streets crossing Main, the **ODD** numbers are on the South, and the **EVEN** on the North side of the street, commencing at and running East and West from Main, thus dividing each into two distinct streets, distinguished by prefixing East or West to the name. All others running in a similar direction are numbered in the same manner, commencing at the point nearest to Main and running East or West, according to the direction of the same.

In designating the **CORNER** numbers we have used **ODD** numbers entirely, except where streets commence at or end upon the side where the **EVEN** numbers belong.

 The Platting Commission have suggested that the streets marked with a \* should be vacated.

- AARON** al. b. Wood and C., I., St. L. & C. R. R., from Webb to Avery.
- ABBOTT**, from Spring w. of Grand to Judson, Fairmount.
- ABBOTT** al. b. Webster and Franklin, from VonSeggern al. to College al.
